**SAFEDOORS** 

# Inspiring ideas for your home

Along with quality, we have not forgotten style. Whether you live in a traditional or modern home we have a design to suit.

In this brochure you are sure to find a style to meet your taste with a vast range of colours, woodgrain finishes, glass options and hardware. Every door will be tailored to your requirements.

All our doors comply with the latest building products regulations and we are BSI registered which assures you of our commitment to each and every door.

#### All doors come complete with:

- Fully reinforced 70mm PVC-U outer frame
- A full multipoint locking system with anti-bump cylinder, keeps, handles and threshold
- Doors are prehung in their frame left or right handed to your requirements
- All double glazed units are made to EN1279 for added security and insulation
- Secured by Design approved specification available on request
- All doorsets come with a 10 year guarantee

We can also supply a range of extras including letterplates, door viewers, numerals, cills and knockers.

# Composite front door range

Low maintenance finish wipe clean with a damp cloth to restore its original finish.

Looks like wood but won't dent, warp, bow or flake.

Make your front door stand out from the crowd with a choice of 13 colour options

16 great styles to choose from including both traditional, contemporary and heritage designs

Personalise your door with our range of hardware including handles, knockers, letter plates and spy holes

## Door construction

All of the doors in this range come under the phrase GRP. This stands for Glass Reinforced Plastic, and is more commonly known as fibreglass.

GRP is a material that is commonly used in the most challenging marine applications, so it makes a perfect finish for external doors.

It is light, requires very little maintenance, and can be manufactured in a variety of attractive styles. It has a high resistance to denting, warping, bowing, twisting, splitting, peeling, flaking, cracking and fading, making them extremely durable.

At Safedoor our composite doors benefit from the aesthetic, traditional appearance of wooden doors, without the regular maintenance needed to keep them looking great, with greater thermal efficiency.

Each door is made-to-measure to ensure the exact size and shape for your property. Once installed it will never need re-adjusting.

## Why fibreglass?

Fibreglass is best described as a combination of the top attributes of all types of modern door materials. Unlike some other types of material, fibreglass will not splinter, dent or rust assuring you of a sound investment for your property. Our doors are finely crafted to replicate the appearance of wood. We combine the elegance of timber with the high performance thermal and security aspects you would expect.

For many years fibreglass has been used for boat building, army tanks and formula one cars and now the material has been extended to exterior doorsets.

# Thermal Efficiency

All Safedoor doors are assessed under a scheme by the British Fenestration Rating Council (BFRC) called the Door Set Energy Ratings Scheme (DSER).

This scheme follows a familiar rating system often found in common household items such as fridges and televisions. The scheme shows how energy efficient each door is on a sliding scale 'A++' rated being the highest achievable.

**7 styles A rated** classified doors with less than 5% of glass area.

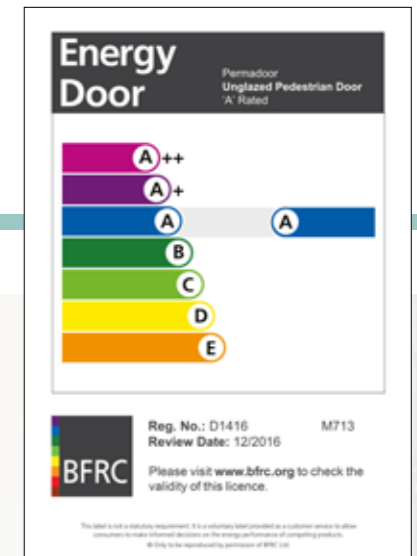

Cottage Solid   Cottage Diamond   Cheltenham Solid   Aintree Solid   Newbury Georgian   Newbury   Aintree2

**9 styles B rated** classified doors with 5% to 20% glass. Requires Low E glass.

Aintree 4   Ascot   Cheltenham   Cheltenham Arch   Cheltenham Brow   Newbury 3   Goodwood   Sandown   Chepstow\*   Plumpton\*   York

\*Estimated values

This rating is increasingly important as it could reduce your heating bills significantly by less heat escaping through an ill fitting or thermally inefficient doorset.

Safedoor has 7 styles that have achieved an A rating. The other styles, because they have a larger area of glass in the door have a very creditable B rating.

So Safedoor not only keep your property warm but should reduce your energy bills.

# Take your pick

Follow our step by step guide to make selecting your new Safedoor as easy as 1, 2, 3...

## Door style

Solid or glazed? Traditional contemporary or heritage? Whatever your style preference you will find a door to suit your home in the Safedoor's Diamond range.

DOOR STYLE

## Colours

With 13 great colours to select from you really will be spoilt for choice. For a more traditional timber feel you could opt for Rosewood or Antique Oak. Maybe you'd like the old fashioned charm of our Chartwell Green or Soft Cream or maybe you'd like to add a dash of colour with one of our Red or Aubergine doors. Whatever your colour preference our doors are low maintenance and won't ever need painting.

COLOUR OPTIONS

## Security

We know how important it is to feel safe, when you are both in and out of the house. This is why all of our doors come complete with a Yale multipoint locking system which means that the door locks in three places along the opening section giving that extra strength against the frame of the door and cylinder.

DOOR SECURITY

If you would like to upgrade to the Secured by Design specification recommended by the police authority then please let us know when you place your order.

## Glass

If you select a glazed design we have many decorative and plain glass options for you to choose from. All double glazed units are made to EN1279 for added security and insulation.

GLAZING OPTIONS

We can also offer side panels in a number of designs should you want to increase the light in your entrance area.

## Hardware

Just like a cherry on top of a cake our hardware range is designed to complement your Diamond Safedoor.

HARDWARE OPTIONS

We offer a selection of handles, knockers, letter plates and spy holes in a variety of colours and finishes allowing you to truly personalise your door.

# Traditional Door Styles

OPTIONS

# Cheltenham

This classic style door continues to remain one of our most popular designs. The simplistic style is brought to life by the exciting glass designs which can reflect your individual style. **Solid option available on page 44.**

# Solid Options

For those wanting to recreate a traditional timber door we have three great styles to choose from...

## Aintree

Aintree Solid

This classic style replicates traditional timber designs and is always a popular choice. Shown in Blue with Chrome letter plate, handle and numerals.

## Cheltenham

Another classic design, the Cheltenham has proved to be a top selling door. Shown in Green with Gold letter plate, handle and urn knocker.

## Cottage

The ideal door for rural properties or those looking to recreate the traditional cottage feel. Ideal as a back or front door this design is perfect for traditional properties wishing to maintain an authentic character.

# Fire Doors

Our 30 minute fire doors have been designed to the highest specifications and tested to comply with the exacting standards of BS476 Parts 22 and 31.

As well as offering 30 minute fire resistance we are also able to offer a contemporary range of styles as shown below.

The doors are designed for most situations where building regulations require a fully approved FD30S fire doorset such as flats, shared entrances, links from house to garage, and multiple entrance dwellings.

The glazing options are Georgian wired polished plate with Clear, Cotswold, Minster or Stippolyte backing glass. All FD30S fire doors are supplied in PVC-U frames and with double glazed sidelights and toplights as required.

N.B. The fire door is available with a limited range of door furniture, please ask for more details.

# Obscure Glass

OPTIONS

Choose your level of privacy by adding backing glass or keep it clear for maximum light.

Doors which offer an obscure glass option can use any of the below designs.

Arctic

Autumn

Chantilly

Charcoal

Contora

Cotswold

Digital

Minster

Stippolyte

# Colour OPTIONS

Whether you opt for classic white or add a bold splash of colour with our aubergine door you can be sure your Safedoor will make a great addition to your home.

White

Blue

Green

Red

Black

Rosewood

Antique Oak

Soft Cream

Chartwell Green

Duck Egg

Pastel Blue

Aubergine

Anthracite Grey

All doors are supplied with a white internal face and frame with the exceptions of Antique oak and Rosewood which can be supplied as colour on colour.

All colours are a visual representation only. Please ask for samples if you would like to see accurate swatches.

## Hardware OPTIONS

Once you have decided on your door style, colour and glass design you can really add the finishing touches with our stunning range of suited hardware.

**Complement your door with;** Handles, Pull bars, Knockers, Spy holes, Letter plates, Letters & numerals

**Available in;** Gold, Chrome, Black, White, Bright Bronze, Graphite, Antique Black

Weather bars offered on all doors which helps protect the door during rain and snow storms. Weather bars are available to match the door colour.

# Your Questions Answered

We know that any purchase for your home is important and naturally you may have some questions.

We have tried to answer as many of these as possible on the following pages. However if there is anything we may have missed you can always get in touch with us by emailing [mail@safedoors.co.uk](mailto:mail@safedoors.co.uk).

## Who makes my door?

We are the original composite door company and have been manufacturing doors for 25 years. We have been manufacturing doors in the UK for households across the country for over two decades and have more experience than any other company in making sure your order satisfies your requirements. In fact we have manufactured over a million doorsets in that time.

## What guarantee does my door come with?

We guarantee EVERY door for 10 years from the date of installation giving you peace of mind in your investment.

## What security aspects does my door come with?

We always fit the latest high security locking devices available to us. Each door comes with a full multipoint locking system which means that the door locks in three places along the opening section giving that extra strength against the frame of the door. If you would like to upgrade to the Secured by Design specification recommended by the police authority then please let us know when you place your order.

## Are you environmentally friendly?

Yes indeed we take our environmental responsibilities seriously. We have the ability to recycle all our offcut material. Added to that we use recycled material (RCM) as a reinforcer in our door frames providing you with superior strength as well as offering a more sustainable substitute to steel.

## Are the doors thermally efficient?

Yes we have worked hard to constantly improve the U-values of our doors. The U-value signifies the thermal efficiency of the door the lower the value the better the door. We have achieved some of the lowest values in the marketplace meaning that your heating bills will be lower and your house warmer.

## What hardware can I choose?

We are able to supply a full range of hardware to suit your chosen door design. We offer a suited approach which means that all hardware matches whatever you order. Choose from a knocker, letterplate, numerals and spyhole. All designs come in a choice of Gold, Chrome, Black, White or Bright Bronze, Graphite and Antique Black. See page xx for more details.

## Glass choices

We offer a clear backing glass as standard. All our double glazed units are fitted with a high energy efficient and elegant black spacer bar as standard.

## What colour door can I order?

Please see page 52 for the full list of colours we offer. Note the inside of the door will be white unless otherwise stated. Woodgrain finishes may vary from door to door as like timber painting or staining the process may result in some slight variation in colour. This adds to the aesthetics of the door finish.

## Does the door open to the right or left?

When your order is taken you will be given the choice of having the hinges on the left or right hand side.

## Is the door compliant?

Yes. All of our doors are fully compliant to the latest building regulations. You can also be assured that we are a BSI registered company which means that our management and quality control are right up to date throughout the manufacturing process. All doors have a rating of 1.5 W/m<sup>2</sup>/K or less and thus conform to the latest building regulations.
