THE
PLATINUM
COLLECTION

WELCOME

The Platinum Range of low maintenance composite doors brings to the homeowner, a solid and secure door with more choice than ever before.

10 different colours in 15 different styles gives you a wide choice of doors that will compliment your property, windows or lifestyle. Add a stylish range of glass most triple glazed and then select hardware to match and the choices really are limitless.

Style is key with The Platinum Range but you should also know about the solid construction of the doorset you are investing in.

The Platinum range is constructed of a solid board core with Thermoplastic facing. All 4 sides of the door leaf are encapsulated using an edge banding process. The door is low maintenance and easily maintained by just an occasional wipe down ensuring the door will outlast traditional timber alternatives.

All doors are unique and made to measure. Once installed they will not require adjustment.

All our doorsets comply with the latest building regulations. As a BSI registered manufacturer each and every product is produced to the highest standards. That's why each door has a comprehensive guarantee including the hardware.

All doors come complete with:

- Fully reinforced 70mm PVC-U outer frame. All colour matched with the door leaf when required
- All doors are supplied with a white internal face as standard
- A full multipoint locking system with anti-bump cylinder, keeps and handles
- Doors can be pre-hung left or right handed to your requirements
- A full choice of hardware is available to order with each doorset
- Sidelights can be ordered to colour match the doorset
- All doors have a grained effect to replicate the appearance of timber but without the downsides
- All doors come with a fully comprehensive guarantee

Responsibly sourced, composite timber core construction which gives the door its strength and security.
