

Tilt and Turn windows

With simple to operate, reliable gearing, more and more British homeowners are beginning to appreciate the sheer practicality of Tilt and Turn windows. Open up more opportunities by using these windows in all sorts of properties – they're ideal where there's any sort of access restriction or where a home sits close to a busy road. And they make great practical windows for all kinds of commercial premises too, offering secure, draught-free ventilation.

Tilt and Turns made with Optima offer the reassurance of secure all-round locking alongside an unobtrusive and elegant frame. Its looks are light and streamlined, but its performance is reliable and strong.

Stylish and practical

When choosing windows for high or medium-rise properties, they have to be exceptional performers. Optima fits the bill perfectly, bringing new standards to Tilt and Turn technology. Optima's profiles are remarkably strong considering their streamlined shape and, importantly, they are built to offer increased levels of insulation and weather protection. Ground-breaking ideas like the optional third seal on the outerframe and sash are added to smart changes like the increased frame overlap which improves sightlines and thermal performance. Glazing gaps can range from 24mm right through to 44mm and thermal inserts are available to enhance insulation. With customers from all sectors demanding higher-specification windows, Optima hits the mark with the very best window energy ratings of A++ and U-values of 0.8 W/m²K.

Tilt and Turns can incorporate all the advanced security hardware your customer wants including child-safety restrictors and advanced gearing makes them simple to operate and maintain. Combine them with fixed lights to glaze larger apertures or choose Tilt and Turns for bays, conservatories or orangeries. Wherever you use them, Tilt and Turns are at home. Engineered to be easy to fabricate and install there's a complete range of cills, packers and couplers, all of which fit perfectly. There's with a wide choice of woodgrain and coloured foils, including dual-coloured options and flat and textured finishes.

THE BEST WINDOWS ARE MADE FROM
