## About Deceuninck

Deceuninck is one of the top three PVC-U extrusion companies in the world with operations across 75 countries, leading in innovation, colour, sustainability and design. Extruding in the UK for over 30 years, our solutions meet today's demand for timeless and elegant design, while striving to achieve the lowest possible ecological footprint.

Deceuninck is known for its 'pretty' windows with inbuilt symmetry and clean sightlines. Its Heritage Window Collection has a choice of beautiful Flush Sash, Chamfered and Sculptured windows and doors. Other #BestInClass products include the Slider24+ patio door and the commercial Fully Reversible Window.

### All colour combinations available from stock

Our In Stock Colours have been specially designed to help you put together the perfect colour palette for any home. Our beautiful range of colours take inspiration directly from nature to harmonise perfectly with its surroundings, ensuring it stays looking good for years to come.

Flush Windows

**Flush Windows**

Designed to replicate the appearance of timber, Flush windows are distinguished by sashes that close into the frame and finish flush with the face of the window. Flush windows typically have frames that appear the same width, known as 'equal sightlines' this look is achieved using dummy sashes, something that undoubtedly improves the overall appearance of your property.

**Key Features & Benefits:**

- Sleek slimline frames
- Dummy peg stay option
- Traditional butt or mitred joint
- Exquisite Georgian bar option
- Unique night vent facility
- Excellent, energy, thermal and weather performance
- Enhanced security PAS 24 Approved
- Double or triple glazing available A++
- Low maintenance PVC-U frames
- Available in a range of hand-picked Heritage woodgrain finishes

### Slider24 & Slider24+

As one of the best sliding patio doors on the market, Deceuninck's Slider24 and Slider24+ offers innovative design and energy efficiency to guarantee superior long-life performance.

#### Key Features & Benefits:

- No.1 for Colour
- PAS24 Certified
- Security Enhanced Performance
- Outstanding Weather Performance
- Best Energy Rating A+ Rating (Double Glazed)
- Low Threshold
- Disabled access and easy mobility
- Suites with Heritage Windows

#### Additional Benefits of Slider24+:

- Document M and Q Compliant
- No Interlock Plunge Bolts
- Improving Access & Aesthetics
- Security Guarantee - Recognised by Neighbourhood Watch

### Heritage 2800

Heritage Sculptured Sash windows look great in any surrounding; its subtle charm and elegance transforms the building like no other.

#### Key Features & Benefits:

- Smooth contours
- Traditional butt or mitred transom/mullion joint
- Unique optional run through horn sash
- Exquisite Georgian bar option
- Traditional ironmongery options
- High energy rating and weather performance
- Enhanced security PAS 24 Approved
- Double or triple glazing available
- Low maintenance PVC-U frames
- Available in a range of hand-picked Heritage woodgrain finishes

### Traditional 2500

The beautiful Chamfered shape adds a stylish elegance to both windows and doors, inside and out. Featuring outward opening sashes, which stand proud of the face of the window frame, the styling is sharp yet subtle.

#### Key Features & Benefits:

- Smooth and stylish frames
- Traditional butt or mitred transom/mullion joint
- Traditional ironmongery options

### Fully Reversible Window

Our Fully Reversible Window (FRW) is designed for the Real World.

Deceuninck's Fully Reversible Window (FRW) is #BestInClass for security, weather and thermal performance.

Designed for tower blocks, social housing, hospitals, care homes and any other commercial projects where cleaning the outside safely from the inside is the only option.

With a 1.4mx1.4m maximum aperture it is perfect for modern architecture.

#### Key Features & Benefits:

- Extensive colour range available from stock and on short lead times
- Available with Deceuninck patented Linktrusion technology
- Internal and external finish
- Rotates through 180 degrees
- PAS24 secured
- Outstanding weather performance
- Double and triple glazed
- 80kg weight size
- 1.4m x 1.4m kitemark certified max. size
- Acoustic testing RW (C,Ctr) 41 (-1; -4) db

### Linktrusion™

#### Linktrusion™ Glass Fibre Technology

Linktrusion™ technology, used in Deceuninck's composite 5000 window is a unique, patented technology which makes extremely strong, high performance windows without the need for steel reinforcement. With slim sightlines and a huge choice of colours, these windows are a true alternative to aluminium.

100% recyclable at end of life, so it's sustainable throughout the product life cycle too!
